

creating Interior Solutions

Shop 45 St Peters Lutheran College

Our client's brief was simple and concise:

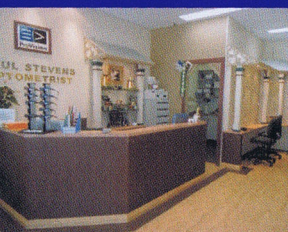

"Take the main service that we offer to the school population – uniforms – add two things (stationery and grocery lines) which we are completely unfamiliar with and have never done before and put them together in an environment to create a seamless solution for us"

A great deal of care, thought and discussions over the design period has resulted in an outcome that all involved are extremely proud of and pleased to have been associated with.

Clubb Dental

Our client's brief for the refurbishment of his busy dental surgery was for a modern look with fine detail, light calming colours, complete with a play area and play station module for children.

The delightful completed project received many favourable comments from patients and the dental staff.

THOMAS BROWN SHOPFITTERS

With over 28 years experience, Thomas Brown Shopfitters have evolved as specialists in creating shopfitting and interior solutions for all types of businesses and organisations. From our initial concepts and design right through to the finishing touches, or we can work closely with your Architect/Designer to maximise interior efficiency and visual appeal.
