Medical Practice Environments

Melanoma Scan, Brookside

This professional office fitout was the second we have arranged for a young medical practice. The tenancy shell was an awkward and difficult space but it had a prime location at the end of a very busy shopping mall. We took advantage of this attribute to give the practice a bold, colourful and impressive shopfront. Combined with five consultation rooms, a treatment room and allocation for a pathology clinic; the end result has been well received by doctors and patients alike.

The Noosa Clinic

This medical practice relocated to a new location to be more accessible for their clientele. The owner was heavily involved in the design and planning of the Clinic. A keen eye for detail; he was very impressed with the end product and the service he received along the way. We are very proud to have been selected to create this Practice and are happy to see it operating as efficiently as planned.

Burpengary Morayfield Hub Medical Centre

This practice has been established in a new development corridor to capitalize on the growth of the Burpengary/Morayfield area. Both Doctor and Practice Manager made themselves available throughout this project to be involved in all decisions. The Practice opened its doors to a rush of patients. Everybody involved, including Doctors and patients have praised the final fitout and our professional staff for their easy going attitude and quality workmanship.

THOMAS BROWN
SHOPFITTERS

We have established a solid foundation, with the guidance of our 30 years experience, allowing us to evolve into fitout specialists for the Health Industry. Our aim is to provide professional and timely service to our Clientele in every aspect of our interaction during a project. From your initial contact with us to well after the completion of your project you will find out team, friendly, knowledgeable and helpful.

We provide services that together fulfill the credo of a 'One Stop Shop' but alone stand to serve your individual needs. Ask us how we provide:

- Design of your Practice Environment to satisfy your accreditations (our in-house design team work with you to create an environment that is functional and aesthetically engaging)
- Quotation of the project to provide a fixed price (i.e. no scary end of project costs)
- Submission of Plans and Documentation for Authority Approvals
- Manufacturing in our own factory at Stafford to control quality of your project
- Project management of the entire process (inc. all sub trades)
- Site installation and Management during the fitout of your Practice.

We believe in the service we offer and the product we leave you to work in. That's why we back our workmanship with a 6 month warranty.
