Pharmacy Environments

Rainbow Beach Pharmacy

This Pharmacy was relocated to a larger site with direct access and increased visibility. We were invited to design and then construct this brand new Pharmacy. Timing was critical so as to open prior to Christmas and capture the holiday trade. Our client was involved throughout the project which led to a more enjoyable experience for all. We are delighted with the fresh look and positive growth for the store as are the Owners, staff and Customers.

Amcal Pharmacy, Dalby

Having completed a previous Pharmacy for this Client he knew we would move heaven and earth to have his new Pharmacy open and trading on time. We did finish on schedule and are extremely proud to say that all involved are very happy with the quality of the project.

Gympie Friendly Society Pharmacy

The brief for the design of this Pharmacy was simple: create more space and efficiency from the same tenancy area. We set about modifying the Dispensary to better suit the store and its members. We consolidated the back of house area, redesigned the service areas and the retail layout. We accomplished the goals from the brief without breaking the Client's budget and built the new store on time. Our Client has had great feedback from their members on the new look and feel of the store.

Burpengary Amcal Pharmacy

This client approached us to design and build a new Amcal Pharmacy with an adjoining Medical Centre and space allocated to QML. We worked with all parties to design the store layout and have approvals issued from Amcal for the Pharmacy. The construction phase was an exercise in flexibility with the scale of work being done in the short timeframe. We're happy to confirm that all involved are happy with the completed fitout and we are proud to have been involved in the project.
